This may certife, that I have tested the virtue and efficiency of "Bigglow's Alterative," and find it to be a safe and efficiencians remedy for those very prinful and often find diseases which at Wifferent periods affect both old and young, viz. I byentery Cholers Murbai, &c. Believing it to be a valuable medicine in the above ruses chearfully feconomed it to those who may have the milottune to be afficied with Dyentery and the like, and having given it a fair trial in may own practice, which serve andmirably the purpose for which it was given, I feel no heatmacy in giving it my sanction as a sale and valuable medicine for which it was given, I feel no heatmacy in giving it my sanction, as a sale and valuable medicine.

L. W. WHIGHT, M. D. G. McDennill street:

I have used "Bigrlow's Alterative" in my family and have never found it to fail, when all other remedies administered by, and under direction of Physicians have proved medicinal. J think it a perfect corrective for Dyesterica and all bavel compliants.

FOR PRESIDENT. WINFIELD SCOTT, of NEW JERSEY. FOR VICE PRESIDENT,

WILLIAM A. GRAHAN, OF FORTH CAROLINA.

Electors, BLIGHA HABRIS, of Coventry. IGAAC P. HAZARD, of Newport. AMOS D. SMITH, of Providence, CHARLES ALLEN, of North Kingstown

GEN. SCOTT IN THE WEST .- The journey of General Scorr from Cleve. land to Columbus was a complete triumphal march. At every point where the express train stopped vast masres of the people, the real hard-working farmers and mechanics of the land, were there, cager and anxious to see, to hear, and to take by the hand the great patriot chieflain who for so long a period has been distinguished in the annals of the nation. General Scorr, at each of these points, was enthusiastically called out, and addressed the people briefly but sloquently and appropriately. He has studiously refrained from all allusion to party topics. His is not a political mission. He is ordered by our Government to proceed to Maysville, where he will meet a Commission to select a location for an hospital for infirm aged soldiers of the United States army. But it has been for years impossible for him to travel through the country without being met with the warmest greetings from his admiring countrymen. His present position, as the candidate of the Whig party for President, renders it a delicate duty for him to recieve and dispose of these manifestations of regard in an appropriate manner. But his long expe rience and great good sense come to his aid, and enable him to meet the task

with great propriety.

The people along the road will remember the 21st of September with great pleasure, and we have no doubt that the grateful and enthusiastic reception he has met will be a pleasure to him in his declining years. Long may he live to enjoy the warm regard and affection of the American people !- Ohis State Journal Sept. 23.

Town Tax .- It will be seen by a advertisement in another column, that this is the last day for paving want paid by night.

U' Gov. Brown, of Florida, (enge the News Orleans Picayune,) has made a curious blunder, in issuing a proclamation directing the presidential election to be held on Monday, November 2d, instead of Tuesday, November 2d. Ut will have to be corrected and a new proclamation issued, and speedily too, or there will be a great deal of confusion in the elections.

We congratulate our friends of the Protestant Episcopal denomination on the close of the long pending difficulty in which the controversy respecting in Bishop of this diocese has involved

The Rev. Dr. Wainwright, of this city, as will be seen by the report of the convention's proceedings, was this foremoon elected provisional Bishop, by n majority vote of both orders, and we subsequently unanimously confirmed It is well understood that Dr. W. will accept, and thus put an end to the " anomalous condition" by which the diocese has been so long embarrassed _N. Y. Com. Adv. 1st.

THE POLPIT .- Berachah .- A discourse nced in the Central Baptis Church, Newport, R. I., July 4th, 1852, by Rev. Henry Jackson, from 24 Chronicles, xx: 26. We have received a copy of this discourse which we have rend with pleasure. Through written, as we learn from the Preface, " without any intention of its being published? and bearing marks of haste in prepara tion, it reflects credit upon the head and heart of its reverend author, and is highly just and appropriate to the day and the occasion of its delivery. We have not more time to devote to this excellent discourse, else it would afford us pleasure to do so. We have had the satisfaction of hearing Rev. Mr. Jackson preach several times, and know him. by reputation to be a man of extensive research, liberal views, active benevolence, and devoted piety.-Pull River

ILF Some half dozen Democratic pa pers in Alabama have decerted the sink ing cause of Pierce and King, and hoist-ed the flag of Troupe and Quitman, the nominees of the Southern rights party. Other papers are expected to follow the same lead, both in Alabama and Mississippi. In the first named State a full electoral ticket has been nominated.— This is an important matter, as by deviding the Democratic vote the State may and probably will go for General Scott.

GRE, SCOTT AS AN ORATOR .-- The ednor of the Lowell Journal, who was an officer under Gen Scott's command In Mexico, says:

alt is not an uncommon thing for Gen Scorr to make a brief, terre, and elo-, quent address to his men on the battle field. On such occasions he is extremely happy, and the carnest and feeling with which he speaks, shows that his whole heart is in what he says. - Many of these addresses might be cited. After the full of Chapultepec he rode up the hill where our soldiers were shooting down the Mexicans after they were laken prisoners or had surrendered. He closed a feeling address, in which he dissunded them in the moment 'of triumph from doing an act that had the appearance of inhumanity, with these words; Deeds like yours are recorded in history. Be humane and generous, my boys, you are victorious. I will get down on my bended kneer to God for you to-night."

Some of his answers to the Mexican Commander-in-Chief were brief und to the point. The night before the battle of Chapultepec, Santa Anna sent word to Scorr, that unless he surrendered in four hours he would show him no quarterst General Scorr sent back that he found his (Santa Anna's) quarters so far, very good, and he should take possession of the rest of them without asking him to show them to him! Again, when the troops were about entering the Capital, Santa Anna sent to Scott for his terms The latter's reply was-I have no answer to give and no question to ask.2 'It was a time for action and not for parley.

Gen. Scorr was educated to the bat and on ordinary occasions (off the field) he speaks rather slowly, and with great deliberation, as well as with great elo, quence. His different speeches before the Court of Inquiry in the National Palace in Mexico, were admirable speelmens of his prutory and eloquence. Indeed, there was something thin to more! sublimity in that scene-the great Captain of the age and conqueror of Mexico, a prisoner as it ware, in the Capitol of the country he had conquered, and on the very theatre of his brilliant victoties-which invested his appearance before that tribunal with a degree of thrilling interest never before witnessed on ordinary occasions."

ay-At a Whig meeting in Springfield, last Thursday evening, the Republican states that the most interesting part of the evening's entertainment, was a speech from one of our adopted citizens, Mr. John Murphy. He stated a true Democrat, and had always voted with the Democratic party, but of late he had become thoroughly convinced that the so-called Democrats were so but in manie-that the reason why he and almost all others of his countrymen joined the Democratic party, was on account of the name-that in ould Ireland, "Whig" was the same thing as "oppressor," and was as offensive to them when they landed on our shore, as a "dose of argenic,35 but that he with many others of his countrymen, now understood the matter better, and would show by their vote, thus fall, that they could discriminate between the enemies of American labor and industry-the bigoted supporters of a relic of the dark ages-and the friends of liberty, democracy, industry and National prosperity."

IT > The annual tournament between High and Low Church tactics is carried on this year with the customary vigor The Diocesan Convention of the Episcopal Church has now been in session for two days, and its proceedings have mainly turned upon the leading ques tion which has occupied Convention after Convention, and always with similar results -- viz: the choice of a Provisional Bishop in the place of Dr. ONDERpowe. The lowe and animated debate of last year resulted in the election of Rev. Dr. Carionton, of Westchesler County, but that respected Clergyman, in view of the unsettled condition of the Diocese, saw fit to decline acceptance of the post that was freely proffered him .-The contest returns at the present Convention with new vigor, and apparently with a determination to provoke an laue. The question now less principal. ly between the parties headed by Rev. Dr. VINTOR of Brooklyn, and Rev. Dr. WAINWRIGHT of Trinity. At the close of the fifth ballot last evening, the lastnamed candidate led the Lay votes, while the former held a majority of the Clergy; the Convention arriving at no decision. To-days' results will be very likely to put a quietus on the dispute.-Kindred topics of agitation, regarding the division of the Diocese and the admission of Colored Churches, have attracted their share of attention. The Colored parishes are again refused admittance, and the argument stands over for a subsequent occasion. - N. Y.

LATER FROM CALIFORNIA.

New Ontages, Sept. 30. Lieut. Rodgers, U. B. N., commanding, arriving at this port to day, with 120 passengers, and about a quarter of a million gold dust on freight and in the hands of passengers.

The Palcen came by way, of Appinwall, and bringe advices from San Fran ciaco to the 1st of September.

The steamship Ohio, Lifeut, Schenck, U. S. N., communder, leit Navy Bay on the 21st inst. with the Pacific mails, 300 passengers, and two millions in gold

duet on freight. The steamship Brother Jonathan, o the Nicaragua line, which was supposed to be lost, had arrived at Panama and departed thence for her destination on the 10th.

The Falcon reports that the new and splendid steamship Cortez, of Mesers, R.R. Davis & Brooks's New York and Son Francisco line, had arrived at Panama, from New York, alter the rapid passage of staty-three days running time, from port to port, being the shortest trip on record, and surpassing that of the Winfield Scott, her associate in the line, which had previously made the trip in sixty-six days and ten hours.

The health of the Inthmus was generally good.

Considerable excitement existed at Panama on account of the discoveries of gold upon the lathmur; and many of the inhabitants had left their homes for the diggings.

. The telegraph project across the lathmus was going on invorably.

The rail road was expected to be completed to Panama by about April

next.
.The news from California is interest ing; there have been some fow murders and other outrages since the railing of the last steamer, but as a general thing the state of affairs is far more en-

couraging.
Some serious disturbances have, however, broken out in Contra Costa, which the authorities had taken prompt

meneures to quell.

A difficulty occurred recently between Major Savage and Capt: Harvey, on King's river, in which the former was killed.

The overland immigration continued to arrive in large numbers. Some of the immigrants report the most terrible sufferings, while others have fared well during the entire journey.

The news from the mines is very fa-

vorable, and the yield the coming sea son, it is anticipated, will be immense

Mensures for the independence of The notorious Parker H. French was at Durange. He had made a proposition to the Governor to allow him to arm and equip a company of one hundred Seminoles, with which to keep the Apaches in check.

Some new and valuable gold discoveries have been made on the East range of the Sierra Nevada.

· The lugitive slave case, on trial for some time past, in San Prancisco, had been decided by the surrender of the fu-

The California markets were only moderately active, and many descriptions of goods had declined. Several auction saler had been held, at which the prices accepted in a number of instances were below the first cost of . the goods in the Atlantic states.
The money market was in a favora-

ble condition, and the receipts of gold dust at San Francisco was on the incřeasu.

From Oregon we learn that, owing to the neglect of the farming interest, flour and wheat were on the rise, as were also many other articles of produce.

The papers contain nothing of special importance from any other portion of the Pacific coast. A large whating fleet was looked for at Sandwich Islands during the Fall months.

Springrieto, Mass., Sept. 30. Mons. Peris successfully accended in his grand balloop, this afternoon, in the presence of some 20,000 people of all sizes and ages. He had one companion, and went off in the direction of Hartford and probably will alight in the vicinity of that city. It was a magnificent spectacle. No accidents.

for An English paper states that an electric time ball is to be put up on a prominent spot on South Poreland Point, near Dover, which will act simultaneously with the electric slocks at the Greenwich Observatory. The falling of this ball, and the simultaneous firing of a gun by electricity, will enable all vessels within ten miles, and those in the Downs, to regulate their chronometera to a second.

Whules on the East Cape Ground .-Accounts from Cape Town, C. G. H. to 2d ult., state that the whaling company's vessels from Table Bay were doing well, whales appeared to be abundant down the coast to the North, and all the English merchant ships reported seeing a great many whales. So tow American whalers had been on that coast for 4 or 5 years that whales had become plenty.
